

HOSTED BY

We take pride in providing the lighting professional with the highest quality most innovative outdoor and architectural lighting fixtures and services available in the industry since 1984. We continue to strive for excellence in both design and quality. B-K Lighting + TEKA Illumination products are installed in high-end residential and landmark applications around the world.

The Lighting Practice transforms ordinary spaces into places that are extraordinary, captivating and memorable. We accomplish this through careful listening, collaboration and dedication to achieving our clients' vision. Our history of ongoing long-term relationships is due to our team's ability to understand our clients' goals and deliver results beyond their expectations.

LIGHTFAIR INTERNATIONAL 2017 GUIDED TOUR

Tuesday, May 9, 2017 • 6:00 PM – 7:30 PM

Pennsylvania Convention Center • Broad Street Entrance

Philadelphia Pennsylvania Temple

1739 Vine Street • Philadelphia, PA 19103

The design of the first LDS Temple built in Pennsylvania was inspired by the neighboring historic buildings that line the Benjamin Franklin Parkway. The Lighting Practice designed the Temple's interior lighting as well as the exterior facade. All lighting systems were carefully selected to create a seamless visual experience. TLP's façade and landscape lighting designs highlight the Temple's detailed façade while relating to the surrounding architecture. B-K Lighting provided the right fixtures to illuminate the landscape surrounding the Temple and complete the project.

Park Towne Place Premier Apartment Homes

200 Benjamin Franklin Parkway • Philadelphia, PA 19130

This mid-century landmark residential community sits adjacent to Philadelphia's Benjamin Franklin Parkway. The Lighting Practice was part of the design team responsible for the interior and exterior renovations. TLP designed an interior lighting system for all public amenities areas as well as the community's exterior hardscape and landscape. To illuminate the pool deck, surrounding tree grove and signature sculpture, TLP chose B-K Lighting LED fixtures because of their range of lumen output, optical distribution, and variety of mounting options.

The Logan Philadelphia, Curio Collection by Hilton

1 Logan Square • Philadelphia, PA 19103

The former Four Seasons has been renovated into The Logan, a modern hotel that enhances guest experience from the lobby to the rooftop bar. The Lighting Practice designed a 100% LED lighting system that exemplifies this high-end, contemporary retake. While the lighting system is consistent throughout the hotel, TLP created customized vignettes that provide guests with unique experiences. Strategically placed B-K Lighting fixtures provided the dimming flexibility needed to enhance the hotel's finishes.

Final Destination – Logan Rooftop Lounge for a hosted reception by B-K Lighting. Alfred Borden, Principal and founder of The Lighting Practice, will narrate a visual tour of landmarks lit with B-K Lighting fixtures along the Benjamin Franklin Parkway.
